## OUTLINE

## Princeton Brushes™ used in this tutorial

	Series	Name & Size	Image
1	Aqua Elite™ Series 4850: Finest Synthetic Kolinsky Sable	Dagger 3/8"	A black and white photograph of a Princeton Dagger 3/8 inch brush. The brush has a black handle with silver ferrule and a silver band near the tip. The bristles are light-colored and pointed.
2	Heritage™ Series 4050 – Synthetic Sable	Round No. 2,5	A black and white photograph of a Princeton Round No. 2,5 brush. The brush has a black handle with silver ferrule and a silver band near the tip. The bristles are light-colored and rounded.

## STEP 1

Draw a circle with a pencil by tracing around any circular object. Paint leaves with color No. 1 by using a Dagger brush. Then add a color No. 2 to each leaf (on a wet layer). Connect the leaves in the branch with the same Dagger brush and color No. 2. Let the painted branches dry completely.

# SIMPLE WREATH

## STEP 2

Take the round brush, in size 5 and paint simple flowers with color No. 4. Take a small round brush (size 2) and add color No. 3 to the wet layer of flowers. Allow it dry.

## STEP 3

Add details with colors No. 2 and No. 4. At this stage use a round brush in size 2. Allow the painted details dry.

## STEP 4

Keep the work with the same brush. Paint more details with colors No. 2, No. 3 and No. 5.
